SOWING SEEDS OF HOPE

“REMEMBER THIS: WHOEVER SOWS SPARINGLY WILL ALSO REAP SPARINGLY, AND WHOEVER SOWS GENEROSLY WILL ALSO REAP GENEROUSLY.”

2 CORINTHIANS 9:6
What does hope look like? To families that have seen their homes destroyed, their loved ones killed, and their livelihoods wiped out as a result of disaster or conflict, the future can seem altogether hopeless. As Christians, we are called to love and care for these brothers and sisters in need. In response to this call, World Renew works on your behalf to provide food, shelter, water, counseling, seed, livestock, and other emergency assistance to disaster survivors. We are also blessed to be able to stay for the long-term to help people rebuild their homes, restore their livelihoods, and better prepare for future disasters. We have seen that even the smallest of these acts of love can plant new seeds of hope in the hearts of disaster survivors.

The Canadian Foodgrains Bank is a crucial partner in this ministry. World Renew is one of 15 member agencies in CFGB. Through our CFGB account and partnerships, World Renew is able to access funding as soon as disasters strike without having to first solicit funds. Because of a generous annual contribution from the Canadian government, this CFGB funding is also often matched 4:1, enabling World Renew to do even more ministry.

Today, on CFGB Sunday, please give generously so that World Renew can replenish its CFGB account and continue to sow seeds of hope wherever there is need around the world.
