GIFT CATALOG 2018-2019

worldrenew.net/gifts

Thank you for giving the gift of a latrine

Latrine, potty, water closet, privy, powder room, outhouse, loo, port-o-john, jonnie, bathroom, throne. Doesn't matter what you call it, everyone around the needs one: a TOILET.

But right now 2.5 billion people in the world don't have access to a clean and safe toilet. That's 1 out of every 3 people. The health and environmental impact of this is tragic. Every year, 760,000 children die of diarrhea related to lack of sanitation. World Renew wants all of God's children to have an abundant life that includes health and safety.

In Laos, where people in villages struggle to grow enough food to eat, a latrine can seem like an impossible luxury. But World Renew works with local Christian partners there to help communities understand the direct link between **latrine use and good health.**

In the village of Maideua, Mrs. Ohd and her fellow villagers used the forest as a bathroom until a health team supported by World Renew helped her and her village understand the connection between hygiene and health. With support from World Renew, the village worked hard to build latrines at every home, including Mrs. Ohd's. She doesn't have to go to the forest anymore and enjoys better health, which frees her for more fruitful work and the security that provides.

Call it what you want. **A toilet is a tool for health and definitely part of living an abundant life. Thank you for recognizing that.**

THANK YOU

"... I HAVE COME THAT THEY MAY HAVE LIFE, AND HAVE IT TO THE FULL."

—John 10:10
