

Healthier Families

MATERNAL & CHILD HEALTH

In remote areas of developing countries, many parents—including pregnant mothers—lack the resources that they and their young children need to survive and thrive. Through *Free A Family*[®], parents can join programs in agriculture, health, nutrition, literacy, and more that help equip them to improve health outcomes for mothers and young children.

This Maternal and Child Health Sunday, join World Renew in working for healthier families by supporting *Free A Family*[®]. Thank you for demonstrating the love of Christ through your prayers and gifts. To find out more about *Free A Family*[®], go to freefamily.org.
