## Thank you for giving the gift of necessary tools

Since the 1970s, World Renew Disaster Response Services has met the needs of communities devastated by disaster, offering people who are suffering physical, emotional, and spiritual loss a helping hand on the path to greater abundance. **Thousands of World Renew volunteers walk alongside hurting disaster survivors in the U.S. and Canada as they recover and rebuild.**

Volunteers who help with the reconstruction of houses need tools to make a damaged home safe and habitable for a family. Your gift of necessary tools may provide things like paint brushes, hammers, saws, tape measures, screwdrivers, and drills so that volunteers can get to work quickly and efficiently.

In 2015, the third worst wildfire in California's history devastated Lake County, Alberta. Burning an acre per second, the fire devoured 76,000 acres and destroyed over 2,000 buildings. **Families were left homeless for months and even years.** Teams from churches like one in Taber, Alberta, sent volunteers of all ages (from 13 to 81) to hang doors and trim, lay flooring, install cabinets, and build decks. Volunteer Brian Kuyper describes the emotional return of one family to their home: "When they walked through the house seeing it almost complete, the mom had tears in her eyes."

**World Renew volunteers are rebuilding homes *and* lives, using the very tools that you are providing.** With your gift of necessary tools from the World Renew gift catalog, you are helping a disaster survivor build a path from pain and loss to a more abundant life.

## THANK YOU

"... I HAVE COME THAT THEY MAY HAVE LIFE, AND HAVE IT TO THE FULL."

—John 10:10
