

**Help World Renew  
Respond to Spring Floods  
in Nebraska and Iowa**

[worldrenew.net/drs](http://worldrenew.net/drs)

In March 2019, the Missouri River flooded to incredible levels, devastating communities that have not flooded before.

**Will you help families in the Midwest, who are least able to recover from spring flooding, with your financial gift to World Renew Disaster Response Services?**

Your support, given in love for your neighbors and the Lord, makes on-the-ground clean up and home repairs, as well as the incredible hope of Christ, available to the families most affected.

Your financial donation supports World Renew DRS volunteers as they repair and rebuild homes for those who cannot recover on their own due to unemployment, a fixed income, or a disability.

World Renew DRS works with local communities, supporting their efforts and making sure that your financial gifts and volunteer time are spent helping those who are most in need of assistance. World Renew DRS reaches out in grateful service to God to help people who might otherwise be overlooked in response efforts.
