

The First 1,000 Days Campaign Plan

Thank you for joining us! World Renew is grateful your church is considering partnering with us to bring good health and hope to babies and moms around the world. Because of gifts like yours, young children can grow up healthy and strong in their first 1,000 days of life and thrive in the years to come.

CAMPAIGN DETAILS

What do we mean by “the first 1,000 days?” That’s the period of a child’s life from a mother’s pregnancy to age two. This period is critical for a child’s growth and development and can have life-long effects on overall health. Through our maternal and child health initiatives, World Renew works to provide healthcare, child nutrition, and support for parents during the first 1,000 days and beyond.

Some stats:

- 15,000 children under five die every day from malnutrition and preventable diseases.
- World Renew has worked in the maternal & child health sector for more than 40 years in several countries, including India, Bangladesh, and Malawi.
- In the past decade, 1.7 million children benefited from health interventions through World Renew and 150,000 women were trained to prevent child stunting in the first 1,000 days.
