Dear Friend,

Thank you for exploring World Renew. Established over 60 years ago and active in more than 50 countries, we come alongside the world's families to change the story of poverty, hunger, and disaster.

We work hard to ensure every dollar reaches as many families and communities as possible. That's why we partner with local organizations to build programs defined by local priorities and embrace a family-centered approach to ending global poverty.

For us, this work is about people, faithfulness, and renewing hope in every story.

Thank you for taking this journey with us.

Sincerely,

Carol Bremer-Bennett
